JNP/HM/Marine/Trade Circular/2024/

Date: 27.11.2024

Trade Circular (JIT)

It's has been observed that some container vessels are arriving JNPA before schedule berthing window and anchor at JNPA outer anchorage (Bravo Anchorage). This is causing congestion at JNPA outer anchorage, also this in increasing CO2 emission near Mumbai city.

As government of India has given "HARIT SAGAR" guidelines. Port has to reduce carbon emission in port area. This can be achieved by avoiding vessel anchoring at waiting anchorage. In view of above all vessel intended to visit JNPA to follow JUST IN TIME (JIT) system.

container vessel visiting JNPA to adjust their ETA to pilot station as per given berthing window time only. container vessel should avoid entering traffic separating scheme for approaches to Mumbai. (Approximate 100 n.m. away from pilot station.)
